

100% MADE IN AUSTRIA

Komperdell is one of the few brands that is still a manufacturer. All poles are created from the first idea to series production in the heart of Austria. The brand stands for honest quality, outstanding service and real sustainability for more than 100 years.

TRADITIONALLY ENVIRONMENTALLY CONSCIOUS - HONESTLY LIVED SUSTAINABILITY

At Komperdell, sustainability is not just lip service, it has always been lived. The production at Mondsee works with pollutant-free and partially recycled materials as well as environmentally friendly production processes with the most modern painting and production facilities. The energy is generated from hydropower, the raw materials come from environmentally conscious manufacturers, the paints are water-based and, if necessary, even drinkable. The aluminum dust is filtered out with water separators and 100% recycled.

LOCAL PRODUCTION

With our local production here in Mondsee we have fewer logistics and shorter ways. This will save tons of CO₂.

MADE IN AUSTRIA

Due to our production here in Austria we have to fulfill the highest environmental standards. We produce here, where we live and where others enjoy their vacation.

HONESTLY ECO FRIENDLY

We run our business with an honest awareness for our environment and don't need any „eco“ certificates to pride ourselves. Our modern production facility generates fewer emission than a standard household kitchen.

PRODUCT LIFE SPAN

Our goal is to extend the life span of our products by providing the highest quality and a 3 years free repair service with no questions asked.

FAST AND FLEXIBLE LIKE NO ONE ELSE.

With a tripling of our assembly and logistic areas as well as a complete renewal of our machinery the most modern pole factory in the world with a capacity of 1,5 Mio. pairs of poles per year is situated in the middle of Austria.

As an owner-managed family company we can respond quickly and consequently to market requirements and implement them extremely quick and flexible.

This means enormously short development cycles, a seamless transition from prototypes to series production and the certainty that good ideas are implemented in the highest quality possible. That's why our customers trust our flexibility.

This makes us a powerful hi-tech company with satisfied, long standing and loyal customers.

THE DNA OF KOMPERDELL POLES – SIGNIFICANTLY LIGHTER AND MORE ROBUST THAN OTHERS

Komperdell is pioneer, trendsetter and series winner and uses state-of-the-art raw materials. Thanks to decades of experience and deep technical know-how, the manufacturer is a specialist in ultra-light products made of 100% carbon and carbon composite materials. Because every gram counts on the mountain, felt with every step you take.

LIGHTWEIGHT

Our know how and own production facility allows us to produce lighter poles as on the market available.

POWERLOCK 3.0

Regardless if dry, wet, hot, cool or frozen our Powerlock 3.0 will hold constantly great and this over many years.

INNOVATION

Our products have won more than 30 international awards. An honour that constantly motivates us to strive to do better with every new product we create.

QUALITY

With the passion of our people we are dedicated to do everything we make with a total commitment to quality and excellence.

CLOSE COOPERATION WITH ATHLETES

Our products are developed in close cooperation with our athletes and in constant exchange with our customers, inspired by our own passion and enthusiasm to the sport.

High performance sport is an essential part of the Komperdell DNA. The brand develops and manufactures products that meet the requirements of the world's best athletes. They trust in Komperdell products and the manufacturer wants to do no less for its customers.

A key factor in the further development of the collection is the cooperation with the best athletes in the alpine ski circuit. But the development of innovations in the field of trekking poles is also accompanied by extreme mountaineers who test the function of the products under the toughest conditions. With Peter Habeler, Gerlinde Kaltenbrunner and Ralf Dujmovits, Thomas and Alex Huber, to name just a few, the Komperdell brand has scaled almost 100 8000m summits.

3 YEAR FREE REPAIR SERVICE

Komperdell does not only stand for highest quality, but also for exceptional service. We repair our poles no matter what happened – without receipt and questions-asked in order to inspire our customers and contribute to a longer product-life-cycle. For us, sustainability means a sustainable and long-term approach to our environment, to nature and above all – to our customers.
